October 23, 2006

Ref: Application No. 10/748,619, Moxson et. al. "Fully-dense discontinuously-reinforced titanium matrix composites and method for manufacturing the same"

PETITION FOR REVIVAL OF AN APPLICATION # 10/748,619 FOR PATENT ABANDONED UNINTENTIONALLY UNDER 37 CFR 1.137(b)

Dear Mrs. Brantley,

We received your correspondence dated October 19, 2006 related to the above referenced Patent Application No. 10/748,619. Enclosed please find our check Nos. 5222 and 5223. Please revive our Patent Application # 10/748,619 for Patent Abandoned Unintentionally Under 37 CFR 1.137 (b). According to the Petitions Office Communication dated 10/19/06, our petition was dismissed due to "lacks" of (1) a check for the \$10.00 balance owed from the fee set in the April 13, 2004 Notice, and (2) a check for \$750.00 petition fee.

This is to let you know that ADMA Products, Inc. issued both above mentioned checks which were sent to your Office on July 27, 2006 along with our Application for Petition by certified mail. We keep stubs of the checks #4715 and #4716 and enclosed please find the copies of these two checks which were enclosed in our previous petition which is also enclosed for your reference. Please do not deposit these checks and replace them with two new ones which we issued all over again and which are accompanied this letter.

We are disappointed that our previous checks were not deposited by your organization and, as a result, we lost some time. As you, probably aware, Mr. John Dudas, the US Commissioner for Patents indicated, in his letter of June 30, 2006, that our Application No. 10/748,619 will be re-considered as soon as possible. His comments were based on the facts that US PTO did not use our new address in the primary communications. Unfortunately, we still did not resolve the issue.

Please re-consider our Petition filed on 8/2/06 and Application No. 10/748,619, and issue a patent for our invention.

Sincerely,

Dr. Vladimir S. Moxson 11/03/2006 AWONDAF1 00000086 10748619
President
